WHICH CONFIGURATION ITEMS CAN I MERGE?	.2
HOW DO I MERGE THE CONFIGURATION ITEMS?	.3
STEP 1 - SELECT THE CONFIGURATION ITEM TO BE MERGED:	.3
STEF 5 - SELECT THE DESTINATION CONFIGURATION TIEM.	

Introduction

This document explains how to merge configuration items.

Software includes:

- PAM QA Plus
- PAM UltraCrop
- PAM AusVit

The ability to merge configuration items is a convenient way of shortening configuration lists without deleting any historical records.

For instance, over time there have been many brand names of Roundup equivalents. If you have been entering these brand names as separate chemicals in the consumables list and would like to merge these into one item (ie: Roundup, or Glyphosate ?), the Merge Configuration Items Utility is the place to do it.

Don't Forget To Backup

Before carrying out the following process it is highly advisable to backup your data to a safe place in case things don't go as planned.

Where is the Merge Configuration Items Utility?

Utilities / Database Maintenance / Merge Configuration List Items...

Utilities		
General Purpose Diary	F2	
Calculator	F3	
Browse Any Dataset	F4	
Display Farm Map	F5	
Farm Filter	F6	
Machinery Cost Calculator	Alt+F3	
Backup, Restore and Transfer Da	ita 🕨	
Database Maintenance	۱.	Compact currently active Database only
Switch to Main Database	Alt+E7	Compact Mapping Database only
Smith to Main Batabase	HICTT /	Compact All Databases (incl. Clients and Budgets)
		Validate Database Structure
		Merge Configuration List Items
		Robuild Daddack and Gree Sincerials

Which Configuration Items Can I Merge?

Within the Merge Configuration Items Utility, you will notice a drop down menu at the top of the screen 'Step 1' to select the type of configuration items to merge:

1.	Select the Configuration List	
	Chemicals	•

After selecting the drop down menu, you will see the list of Configuration items that can be merged:

Chemicals
Crop Harvest Monitoring Items
Crop Monitoring Items
Crop Pests and Diseases
Crop Types
Fertilisers
Growth Stages
Harvest Classes
Harvest Delivery Destinations
Livestock Produce
Machinery
Manual Tasks
Nutrients
Pests Growth Stages
Rainfall Stations
Staff/Contractors
Sundry Items
Supplementary Feeding Consumables
Varieties
Veterinary Consumables
Veterinary Treatment Activities
Water Sources
Weeds and Pasture Species
Wool Brands

How Do I Merge The Configuration Items?

Step 1 - Select The Configuration Item To Be Merged:

1.	Select the Configuration List	
	Chemicals	•

Step 2 - Select The Configuration Item Type And Items To Be Merged:

If the Configuration list that you have selected has sub items, then you will be able to select the sub item from the drop down list (in this case 'Chemical Type'):

2.	Select the Items you wish to Merge	
Ch	emical Type: Herbicide	•
	Linuron DF MCPA 500 Ramrod Flowable Reglone Rival	~
	Round Up Roundup	
	Roundup CT Roundup Xtra Sencor Sertin 186 EC Simazine 500 flowable	×
	Select <u>A</u> ll Cl <u>e</u> ar Invert	

Your list of items will now be filtered by the Configuration Item and Type that you have selected. After your list of appropriate configuration items is shown, select all items that are to be merged by left clicking on them individually.

Step 3 - Select The Destination Configuration Item:

In the drop down menu of step 3, select the configuration item that the items selected in step 2 will be merged into.

3. Select the Item yo	u wish to Merge your	selections into
Roundup		•

Then click the 'Merge' button to commit the changes to the database:

<u>M</u>erge

The Result

You will notice that all items you selected in 'Step 2' now no longer exist in your configuration list and all records that used these items have changed to the item you selected in 'Step 3'.
